

Subject Index January–June 2006

January, pp. 1-128; February, pp. 129-216; March, pp. 217-308; April, pp. 309-404;
May, pp. 405-514; June, pp. 515-606.

A

Abscess

Physical exam and CT findings of a patient with orbital cellulitis (Johnson and Knoop). 2006; 47:134, 166 (Images in emergency medicine)

Abstracts

Abstracts. 2006;47:298–9, 582

Academic medical centers

Academic departments of emergency medicine in medical schools (American College of Emergency Physicians). 2006;47:304 (Policy statement)

Evaluation and treatment of patients with severely elevated blood pressure in academic emergency departments: a multicenter study (Karras et al). 2006;47:230–6

Accidents, aviation

EMS helicopter crashes: what influences fatal outcome? (Baker et al). 2006;47:351–6

Souls on board: helicopter emergency medical services and safety (Isakov). 2006;47:357–60 (Editorial)

Accidents, home

Lawnmower injuries in the United States: 1996 to 2004 (Costilla and Bishai). 2006;47:567–73

Accidents, traffic

Commentary: contrasting rural and urban fatal crashes: scenic beauty or dead at the scene? (Gotschall). 2006;47:575–7 (NHTSA notes)

Commentary: motorcycle helmet law repeal: when will we learn... or truly care to learn? (Vaca). 2006;47:204–6 (NHTSA notes commentary)

Commentary: seatbelt use: nearly an epidemic of safety (McKay). 2006;47:371–2 (NHTSA notes commentary)

Contrasting rural and urban fatal crashes 1994–2003 (National Highway Traffic Safety Administration). 2006;47:574–5 (NHTSA notes)

Evaluation of the repeal of the all-rider motorcycle helmet law in Florida (National Highway Traffic Safety Administration). 2006; 47:203 (NHTSA notes)

For you, for me (Hilton). 2006;47:394 (Change of shift)

Impact of Georgia's Teenage and Adult Driver Responsibility Act (Rios et al). 2006;47:361–9, 361.e1–e16

Acetaminophen, poisoning

Australian clinical toxicology investigators collaboration randomized trial of different loading infusion rates of *N*-acetylcysteine (Gawarammana et al); Reply (Kerr et al). 2006; 47:124–5 (Correspondence)

Acetic acid

The perils of vinegar and the Heimlich maneuver (Wrenn). 2006;47:207–8 (Change of shift)

Acetylcysteine

Australian clinical toxicology investigators collaboration randomized trial of different loading infusion rates of *N*-acetylcysteine (Gawarammana et al); Reply (Kerr et al). 2006; 47:124–5 (Correspondence)

Intravenous loading infusion rates of *N*-acetylcysteine (Manini and Snider); Reply (Kerr et al). 2006;47:123–5 (Correspondence)

Not so fast (Horowitz et al); Reply (Kerr et al). 2006;47:122–5 (Correspondence)

TACTIC randomized trial of different loading infusion rates of *N*-acetylcysteine (Kerr et al). 2006;47:124–5 (Correspondence)

Acute coronary syndrome. See Coronary disease

Acyclovir

Empiric acyclovir is infrequently initiated in the emergency department to patients ultimately diagnosed with encephalitis (Benson and Swadron). 2006;47:100–5 (Brief research report)

Adolescent

Impact of Georgia's Teenage and Adult Driver Responsibility Act (Rios et al). 2006;47:361–9, 361.e1–e16

Advanced cardiac life support

Emergency physicians' voice in the ACLS protocol: guidelines eclectic committee should serve as model (Berger). 2006;47:457–60 (News and perspective)

Age factors

Lawnmower injuries in the United States: 1996 to 2004 (Costilla and Bishai). 2006;47:567–73

Agitation. See Psychomotor agitation

Air ambulances

EMS helicopter crashes: what influences fatal outcome? (Baker et al). 2006;47:351–6

Souls on board: helicopter emergency medical services and safety (Isakov). 2006;47:357–60 (Editorial)

Airway obstruction

Chokehold strangulation (Nielson and Kang). 2006;47:327, 343 (Images in emergency medicine)

Difficult airways are "LEMONS": updating the LEMON mnemonic to account for time and oxygen reserve (Braude). 2006;47:582 (Correspondence)

Alcohol drinking

Evaluation of brief intervention (Li); Reply (Bazargan-Hejazi). 2006;47:211–2 (Correspondence)

Alcoholic intoxication

Impact of the San Diego Serial Inebriate Program on use of emergency medical resources (Dunford et al). 2006;47:328–36

Allopregnanolone. See Pregnanolone

Ambulances. See also Air ambulances;

Transportation of patients

Analysis of ambulance-transports and diversions among US emergency departments (Burt et al). 2006;47:317–26

Effects of hospital closures and hospital characteristics on emergency department ambulance diversion, Los Angeles County, 1998 to 2004 (Sun et al). 2006;47:309–16

Medical direction for staffing of ambulances (American College of Emergency Physicians). 2006;47:306 (Policy statement)

γ -Aminobutyric acid b receptor antagonist. See GABA antagonists

Amiodarone

Amiodarone is poorly effective for the acute termination of ventricular tachycardia (Marill et al). 2006;47:217–24

The quest for a terminator (Cummins and Hazinski). 2006;47:227–9 (Editorial)

Anaphylaxis

Not so fast (Horowitz et al); Reply (Kerr et al). 2006;47:122–5 (Correspondence)

Second symposium on the definition and management of anaphylaxis: summary report—second National Institute of Allergy and Infectious Disease/Food Allergy and Anaphylaxis Network Symposium (Sampson et al). 2006;47:373–80 (Special contribution)

TACTIC randomized trial of different loading infusion rates of *N*-acetylcysteine (Kerr et al). 2006;47:124–5 (Correspondence)

Anti-anxiety agents

An unusual case of subterfuge in the emergency department: covert administration of antipsychotic and anxiolytic medications to control an agitated patient (Lewin et al). 2006; 47:75–8 (Case report)

Anti-asthmatic agents

Emergency department treatment for severe acute asthma (Rowe and Camargo). 2006;47: 564–6 (Editorial)

Antipsychotic agents

An unusual case of subterfuge in the emergency department: covert administration of antipsychotic and anxiolytic medications to control an agitated patient (Lewin et al). 2006; 47:75–8 (Case report)

Antivenins

Lack of scorpion antivenom leads to increased pediatric ICU admissions (Riley et al). 2006; 47:398–9 (Correspondence)

Anxiolytic agents. See Anti-anxiety agents

Ascitic fluid

The FAST Scan: beyond free fluid (Fiecht et al). 2006;47:293–4 (Correspondence)

Asthma

Adverse events associated with the use of intravenous epinephrine in emergency department patients presenting with severe asthma (Putland et al). 2006;47:559–63 (Brief research report)

Emergency department treatment for severe acute asthma (Rowe and Camargo). 2006;47: 564–6 (Editorial)

Atrial fibrillation

Questions regarding BNP assays (Schwam);

- Reply (Omland et al). 2006;47:212-4 (Correspondence)
- Rhythm versus rate control for atrial fibrillation and flutter (Stead and Decker). 2006;47:496-8 (Systematic review abstract)
- Atrial flutter**
Rhythm versus rate control for atrial fibrillation and flutter (Stead and Decker). 2006;47:496-8 (Systematic review abstract)
- Attitude of health personnel**
Emergency physician contractual relationships (American College of Emergency Physicians). 2006;47:586 (Policy statement)
- Automobile driving**
Commentary: seatbelt use: nearly an epidemic of safety (McKay). 2006;47:371-2 (NHTSA notes commentary)
Impact of Georgia's Teenage and Adult Driver Responsibility Act (Rios et al). 2006;47:361-9, 361.e1-e16
Safety belt use in 2005: demographic results (National Highway Traffic Safety Administration). 2006;47:370-1 (NHTSA notes)
- B**
- Bacterial endocarditis. See Endocarditis, bacterial**
- Bariatric surgery**
Presentation and management of common post-weight loss surgery problems in the emergency department (Edwards et al). 2006;47:160-6 (Review article)
- Basic cardiac life support. See Cardiopulmonary resuscitation**
- Benchmarking**
The pneumonia controversy: hospitals grapple with 4 hour benchmark (Thompson). 2006;47:259-61 (News and perspective)
- Bicycling**
Universal bicycle helmet use (American College of Emergency Physicians). 2006;47:306 (Policy statement)
- Birth injuries**
Neonatal fractures (Durani and DePiero). 2006;47:210, 215 (Images in emergency medicine)
- Blister**
Bullous disease of dialysis (Grate). 2006;47:531, 544 (Images in emergency medicine)
- Blood, microbiology**
Blood cultures in pneumonia patients (Bratzler; Reply (Walls and Resnick). 2006;47:582 (Correspondence)
- Blood pressure monitoring, ambulatory**
Evaluation and treatment of patients with severely elevated blood pressure in academic emergency departments: a multicenter study (Karras et al). 2006;47:230-6
- Blunt trauma. See Wounds, nonpenetrating**
- Book and media reviews**
Book and media reviews. 2006;47:126, 300-1, 400-1, 508-9, 583-4
- Branchial cleft cyst. See Branchioma**
- Branchioma**
Branchial cleft cyst (Bloch). 2006;47:291, 308 (Images in emergency medicine)
- Brief research reports**
Brief research reports. 2006;47:13-8, 68-74, 100-5, 184-9, 250-4, 415-18, 525-30, 545-7, 559-63
- Bronchoscopy**
Un-erendipity (Wang). 2006;47:117 (Change of shift)
- B-type natriuretic peptide. See Natriuretic peptide, brain**
- Bullous lesion. See Blister**
- Buprenorphine**
Intravenous use of buprenorphine tablets associated with rhabdomyolysis and compressive sciatic neuropathy (Seet and Lim). 2006;47:396-7 (Correspondence)
- Burns, chemical**
Gastrointestinal corrosive injury after oral zinc oxide (Liu et al). 2006;47:295-6 (Correspondence)
- 1,4-Butanediol. See Butylene glycols**
- Butylene glycols**
Resuscitative treatments on 1,4-butanediol mortality in mice (Carai et al). 2006;47:184-9 (Brief research report)
- C**
- Candidiasis, oral**
Pemphigus vulgaris (Ahlers and Seupaul). 2006;47:395, 402 (Images in emergency medicine)
- Carbon monoxide poisoning**
Response to: To dive or not to dive? Use of hyperbaric oxygen therapy to prevent neurologic sequelae in patients acutely poisoned with carbon monoxide (Matteucci and Tanen); Reply (Judge). 2006;47:504-5 (Correspondence)
To dive or not to dive? Use of hyperbaric oxygen therapy to prevent neurologic sequelae in patients acutely poisoned with carbon monoxide (Judge and Brown). 2005;46:462-4 (Systematic review abstract). Correction 2006;47:199
- Carcinoma, squamous cell**
Fungating squamous cell carcinoma (Heavey). 2006;47:118, 127 (Images in emergency medicine)
- Cardiac arrest. See Heart arrest**
- Cardiopulmonary resuscitation**
Comparison of termination-of-resuscitation guidelines for basic life support: defibrillator providers in out-of-hospital cardiac arrest (Ong et al). 2006;47:337-43
Public training in cardiopulmonary resuscitation and public access defibrillation (American College of Emergency Physicians). 2006;47:586 (Policy statement)
- Cardiovascular risk**
A critical pathway for patients with acute chest pain and low risk for short-term adverse cardiac events: role of outpatient stress testing (Meyer et al). 2006;47:427-35; 427.e1-e12
Prospective multicenter study of quantitative pretest probability assessment to exclude acute coronary syndrome for patients evaluated in emergency department chest pain units (Mitchell et al). 2006;47:438-47, 438.e1-e11
- Case reports**
Case reports. 2006;47:75-8, 167-9, 390-3, 424-6, 472-5
- Cellulitis**
Physical exam and CT findings of a patient with orbital cellulitis (Johnson and Knoop). 2006;47:134, 166 (Images in emergency medicine)
- Center for Medicare and Medicaid Services**
JCAHO/CMS core measures for community-acquired pneumonia (Fee et al); Reply (Walls and Resnick). 2006;47:505-6 (Correspondence)
- Cerebrovascular accident**
Emergency physician survey: recombinant tissue plasminogen activator for stroke (Walsh and Fromm). 2006;47:296-7 (Correspondence)
- Certification**
The oral certification examination (Platts-Mills et al). 2006;47:278-82 (Residents' perspective)
Use of short courses in emergency medicine as criteria for privileging or employment (American College of Emergency Physicians). 2006;47:306 (Policy statement)
- Cervical vertebrae**
Injuries missed by limited computed tomographic imaging of patients with cervical spine injuries (Barrett et al). 2006;47:129-33
- Change of Shift**
Change of Shift. 2006;47:117, 207-8, 289-90, 394, 502, 578
- Charities**
Charity Hospital and disaster preparedness (Berger). 2006;47:53-6 (News and perspective)
- Chemistry, pharmaceutical**
Availability, stability, and sterility of pralidoxime for mass casualty use (Corvino et al). 2006;47:272-7
- Chest pain**
A clinical prediction rule for early discharge of patients with chest pain (Christenson et al). 2006;47:1-10
A critical pathway for patients with acute chest pain and low risk for short-term adverse cardiac events: role of outpatient stress testing (Meyer et al). 2006;47:427-35; 427.e1-e12
Stress testing: it is safe to wait (Magid and Hill). 2006;47:436-7 (Editorial)
The use of a D-dimer as a screening test in the emergency department (Strane and Propp); Reply (Hogg et al). 2006;47:506-7 (Correspondence)
- Chest radiography. See Radiography, thoracic**
- Child. See also Adolescent; Infant, newborn**
Does this child have acute otitis media? (Singh and Bond). 2006;47:113-16 (Rational clinical examination abstract)
Lack of scorpion antivenom leads to increased pediatric ICU admissions (Riley et al). 2006;47:398-9 (Correspondence)
Performance characteristics of a rapid immunochromatographic assay for detection of influenza virus in children during the 2003 to 2004 influenza season (Cruz et al). 2006;47:250-4 (Brief research report)
- Child behavior**
Foreign bodies (Salomon). 2006;47:578 (Change of shift)
- Chromatography**
Performance characteristics of a rapid immunochromatographic assay for detection of influenza virus in children during the 2003 to 2004 influenza season (Cruz et al). 2006;47:250-4 (Brief research report)
- Clinical policy**
Clinical policy: critical issues in the diagnosis and management of the adult psychiatric patient in the emergency department (American College of Emergency Physicians Clinical Policies Subcommittee (Writing Committee) on Critical Issues in the Diagnosis and Management of the Adult Psychiatric Patient in the Emergency Department). 2006;47:79-99

- Clinical policy: critical issues in the evaluation and management of adult patients with asymptomatic hypertension in the emergency department (American College of Emergency Physicians Clinical Policies Subcommittee (Writing Committee) on Asymptomatic Hypertension in the ED). 2006;47:237-49
- Collateral circulation**
Extensive deep venous thrombosis with dilated collaterals and confirmatory emergency department ultrasound (Frazee and Price). 2006;47:292, 308 (Images in emergency medicine)

Laryngeal view during laryngoscopy: a randomized trial comparing cricoid pressure, backward-upward-rightward pressure, and bimanual laryngoscopy (Leviton et al). 2006; 47:548–55

Larynx

Laryngeal view during laryngoscopy: a randomized trial comparing cricoid pressure, backward-upward-rightward pressure, and bimanual laryngoscopy (Leviton et al). 2006; 47:548–55

Lawnmower injuries. See Accidents, home

Legislation, medical

Good Samaritan protection (American College of Emergency Physicians). 2006;47:304 (Policy statement)

Length of stay

Impact of rapid entry and accelerated care at triage on reducing emergency department patient wait times, length of stay, and rate of leaving without being seen (Chan et al). 2006; 47:295 (Correspondence)

Liability, legal

Good Samaritan protection (American College of Emergency Physicians). 2006;47:304 (Policy statement)

Ligaments, articular

Does this patient have a torn meniscus or ligament of the knee? (Strayer and Lang). 2006;47:499–501 (Systematic review abstract)

Litigation. See Jurisprudence

Los Angeles

Effects of hospital closures and hospital characteristics on emergency department ambulance diversion, Los Angeles County, 1998 to 2004 (Sun et al). 2006;47:309–16

Low back pain

Clinical assessment of low back pain (Hipp and Siner). 2006;47:283–5 (Rational clinical examination abstract)

Ludwig's angina

Ludwig's angina in a 4 month old infant (Maimon et al). 2006;47:503, 507 (Images in emergency medicine)

Lymphatic diseases

Un-serendipity (Wang). 2006;47:117 (Change of shift)

M

Mass screening

Intimate partner violence: steps for future generations (Ernst). 2006;47:200–2 (Editorial). Correction 2006;47:423

Use high awareness and judgment to screen emergency department patients for radiation exposure (Koenig et al). 2006;47:120–1 (Correspondence)

Medical history taking

Diagnosing pneumonia by history and physical examination (Rosh and Newman). 2005;46: 465–7 (Rational clinical examination abstract). Correction 2006;47:206

Does this child have acute otitis media? (Singh and Bond). 2006;47:113–16 (Rational clinical examination abstract)

Medical records

Patient medical condition identification systems (American College of Emergency Physicians). 2006;47:586 (Policy statement)

Menisci, tibial

Does this patient have a torn meniscus or ligament of the knee? (Strayer and Lang). 2006;47:499–501 (Systematic review abstract)

4-Methylpyrazole. See Pyrazoles

Midazolam

Etomidate versus midazolam for out-of-hospital intubation: a prospective, randomized trial (Jacoby et al). 2006;47:525–530 (Brief research report)

Randomized clinical trial comparing intravenous midazolam and droperidol for sedation of the acutely agitated patient in the emergency department (Knott et al). 2006;47:61–7

Middle cerebral artery occlusion. See Infarction, middle cerebral artery

Molar

Use of 2-octyl cyanoacrylate for the repair of a fractured molar tooth (Hile and Linklater). 2006;47:424–6 (Case report)

Mortality

Commentary: contrasting rural and urban fatal crashes: scenic beauty or dead at the scene? (Gotschall). 2006;47:575–7 (NHTSA notes)

Contrasting rural and urban fatal crashes 1994–2003 (National Highway Traffic Safety Administration). 2006;47:574–5 (NHTSA notes)

Resuscitative treatments on 1,4-butanediol mortality in mice (Carai et al). 2006;47:184–9 (Brief research report)

Motorcycles

Commentary: motorcycle helmet law repeal: when will we learn. . . or truly care to learn? (Vaca). 2006;47:204–6 (NHTSA notes commentary)

Evaluation of the repeal of the all-rider motorcycle helmet law in Florida (National Highway Traffic Safety Administration). 2006; 47:203 (NHTSA notes)

Myocardial infarction

Misinterpretation of ECG in acute myocardial infarction (Wu and Hsu). 2006;47:121–2 (Correspondence)

N

Trends in γ -hydroxybutyrate (GHB) and related drug intoxication: 1999 to 2003 (Anderson et al). 2006;47:177-83

Specialties, medical

A clash of practice models: debate roils around mega-group medicine (Flynn). 2006;47:347-50 (News and perspective)

Spinal cord injuries

Is routine spinal immobilization an effective intervention for trauma patients? (Báez and Schiebel). 2006;47:110-12 (Systematic review abstract)

Spinal injuries

Injuries missed by limited computed tomographic imaging of patients with cervical spine injuries (Barrett et al). 2006;47:129-33

Spouse abuse

Intimate partner violence: steps for future generations (Ernst). 2006;47:200-2 (Editorial). Correction 2006;47:423

Missed opportunities: emergency department visits by police-identified victims of intimate partner violence (Kothari and Rhodes). 2006;47:190-9

Squamous cell carcinoma. *See* Carcinoma, squamous cell

Stomach ulcer

Gastroduodenal corrosive injury after oral zinc oxide (Liu et al). 2006;47:295-6 (Correspondence)

Strangulation

Chokehold strangulation (Nielson and Kang). 2006;47:327, 343 (Images in emergency medicine)

Stress test. *See* Exercise test

Stroke. *See* Cerebrovascular accident

Students, medical

Report of the task force on national fourth year medical student emergency medicine curriculum guide (Manthey et al). 2006;47:e1-7 (Special contribution)

Subarachnoid space

Subarachnoid space pneumocephalus (Venkat). 2006;47:209, 215 (Images in emergency medicine)

Subclavian vein

Subclavian vein thrombosis (Gonda and Juhl). 2006;47:226, 254 (Images in emergency medicine)

Substance-related disorders

Trends in γ -hydroxybutyrate (GHB) and related drug intoxication: 1999 to 2003 (Anderson et al). 2006;47:177-83

Suicide, attempted

Self-inflicted death during interfacility transfer (Greenwood). 2006;47:212 (Correspondence)

Surgical procedures, operative

Clinical decision rules for secondary trauma triage: predictors of emergency operative management (Steele et al). 2006;47:135-45, 135.e1-e15

Syncope

Prospective validation of the San Francisco Syncope Rule to predict patients with serious outcomes (Quinn et al). 2006;47:448-54
Prospective validation of the San Francisco syncope rule: will it change practice? (Miller and Hoekstra). 2006;47:455-6 (Editorial)

Syndromic surveillance. *See* Population surveillance

Systematic review abstracts

Systematic review abstracts. 2006;47:110-12, 286-8, 496-501

T

Tachycardia, ventricular

Amiodarone is poorly effective for the acute termination of ventricular tachycardia (Marill et al). 2006;47:217-24

- The quest for a terminator (Cummins and Hazinski). 2006;47:227–9 (Editorial)
- Terminal care**
Ethical issues in emergency department care at the end of life (American College of Emergency Physicians). 2006;47:303 (Policy statement)
- Terminology**
Difficult airways are “LEMONS”: updating the LEMON mnemonic to account for time and oxygen reserve (Braude). 2006;47:582 (Correspondence)
- Therapeutic human experimentation**
The spectrum of informed consent in emergency psychiatric research (Brown). 2006;47:68–74 (Brief research report)
- Thoracic injuries**
Chest radiography in blunt trauma patients: is it necessary? (Cryer). 2006;47:422–3 (Editorial)
Imaging in trauma (Schriger). 2006;47:419 (Brief commentary)
A pilot study to derive clinical variables for selective chest radiography in blunt trauma patients (Rodriguez et al). 2006;47:415–18 (Brief research report)
Selective chest radiography in blunt trauma: who cares? (Mower). 2006;47:420–1 (Editorial)
- Thrush. See Candidiasis, oral**
- Time factors. See also Length of stay**
Impact of rapid entry and accelerated care at triage on reducing emergency department patient wait times, length of stay, and rate of leaving without being seen (Chan et al). 2006;47:295 (Correspondence)
